

Agents Outreach Center invites you to join IntroXchange, as an AOC Referral Agent, that can earn you thousands of dollars this year.

IF YOU WORK WITH SENIORS, YOU CAN IMMEDIATELY ADD TO YOUR STREAM OF REVENUE!

Agent's Outreach Center has teamed with [IntroXchange](#), the nation's leading cross-industry compliant lead generation and marketing exchange for financial professionals.

Through IXC's no-cost membership, agents are able to earn from \$250 - \$1,500 by continuing to do what they do best and then asking a simple question.

You see, nearly every senior has heard of reverse mortgages, but don't know where to turn to see how it will work for them. If they are curious, they should turn to you (rather than the latest TV commercial) to connect them - and now they can.

How it works

IXC collect leads (which they call Introductions) from licensed insurance agents and forwards them to a specially chosen banking partner who specializes in reverse mortgages. It is the only one with a team dedicated to handling clients of financial

professionals. They work with your clients to see if a reverse mortgage makes sense for them. They are a boutique, not a factory, so they treat your clients as you would.

If the lead qualifies and is accepted by the banking partner, you are paid a fee whether a loan closes or not.

Potential

Introductions are based on Live Pricing. Fees to you will range from \$250 - \$1,500. Last year, one agent added **\$8,450** to her income by asking a simple question of every senior she worked with. Another agent called his list of existing clients, told them about this new way he can help them and earned **\$13,760!** How much you earn is up to you.

You're invited to find out more

IXC has opened its membership to a limited number of Agent's Outreach Center's licensed insurance agents that are Members of the **Helpline Specialist Network** that includes the following Specific Domain Names / Websites for Reverse Mortgages: ReverseMortgagesHelpline.com & ReverseMortgagesAdvocate.com that can be used as a Marketing Tool for Helpline Specialist Network Members.

REQUIREMENTS & RESTRICTIONS

You must have a current insurance license. You're required to complete a short compliance training module. You must submit an Introduction using an approved form which acknowledges the client's permission for the banking partner to contact them (just fax it in). The lead must be accepted and qualified by the banking partner for them to purchase it. You do not have to be an expert in mortgage lending - the bank handles the entire transaction. The bank is not licensed in every state (but it is in yours). Your membership will be relinquished if you do not make introductions within a year (we've got to make room for those who do).
